Independent Auditor's Report

The Board of Directors
Community Memorial Hospital, Inc.
Burke, South Dakota

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of Community Memorial Hospital, Inc., which comprise the balance sheets as of December 31, 2022 and 2021, and the related statements of operations, changes in net assets, and cash flows for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the financial position of Community Memorial Hospital, Inc. as of December 31, 2022 and 2021, and the results of its operations, changes in net assets, and cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States (*Government Auditing Standards*). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Community Memorial Hospital, Inc. and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Correction of Error

As discussed in Note 15 to the financial statements, an error resulting in an understatement of amounts previously reported for receivables and patient service revenue as of and for the year ended December 31, 2021, was discovered by management of Community Memorial Hospital, Inc. during the current year. Accordingly, amounts reported for receivables, net assets without donor restrictions, and patient service revenue have been restated in the 2021 financial statements now presented to correct the error. Our opinion is not modified with respect to that matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Community Memorial Hospital's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Note 1 - Organization and Significant Accounting Policies

Organization

Community Memorial Hospital, Inc. (Hospital) is a 16-bed acute care hospital and medical clinic located in Burke, South Dakota and a medical clinic located in Bonesteel, South Dakota. The Hospital is organized as a South Dakota nonprofit corporation and is exempt from federal income tax.

Management services are provided to the Hospital by Sanford Regional Health Network under a management services agreement (Note 13).

Income Taxes

The Hospital is organized as a South Dakota nonprofit corporation and has been recognized by the Internal Revenue Service as exempt from federal income taxes under Internal Revenue Service Code Section 501(c)(3). The Hospital is annually required to file a Return of Organization Exempt from Income Tax (Form 990) with the IRS. In addition, the Hospital is subject to income tax on net income that is derived from business activities that are unrelated to its exempt purpose. The Organization has determined it is not subject to unrelated business income tax and has not filed an Exempt Organization Business Income Tax Return (Form 990-T) with the IRS.

The Hospital believes that it has appropriate support for any tax positions taken affecting its annual filing requirements, and as such, does not have any uncertain tax positions that are material to the financial statements. The Hospital would recognize future accrued interest and penalties related to unrecognized tax benefits and liabilities in income tax expense if such interest and penalties are incurred.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. Estimates also affect the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

Cash and cash equivalents include highly liquid investments with an original maturity of three months or less, excluding assets limited as to use.

Patient Receivables

Patient receivables are uncollateralized customer and third-party payor obligations. Unpaid patient receivables, excluding amounts due from third-party payors, with invoice dates over 90 days old have interest assessed at 0.75% per month. Interest income is recognized at the time it is charged to the account. Payments of patient receivables are allocated to the specific claims identified on the remittance advice or, if unspecified, are applied to the earliest unpaid claim.

Patient accounts receivable are stated net of any explicit and implicit price concessions and then further reduced by an allowance for doubtful accounts. In evaluating the collectability of accounts receivable, the Hospital analyzes accounts for adverse changes in a patient's or third-party payor's ability to pay that may have occurred subsequent to recognition. Management regularly reviews specific data about receivable balances and its past history with similar cases to estimate explicit and implicit price concessions, and any allowances for uncollectible accounts.

The Hospital's patient receivables, estimated third-party payor settlements, and other receivables balances as of January 1, 2021 were \$605,680, \$733,164, and \$62,848, respectively.

Promises to Give

The Hospital records unconditional promises to give expected to be collected within one year at net realizable value. Unconditional promises to give expected to be collected in future years are initially recorded at fair value using present value techniques incorporating risk-adjusted discount rates designed to reflect the assumptions market participants would use in pricing the asset. In subsequent years, amortization of the discounts is included in contribution revenue in the statements of operations. The Hospital determined an allowance for uncollectable promises to give is not needed at December 31, 2022 and 2021. Promises to give are written off when deemed uncollectable.

Note Receivable

In March 2018, the Hospital granted Burke Community Pharmacy a \$250,000 line of credit promissory note at 5% interest. There was \$122,500 and \$182,500 outstanding on the note receivable at December 31, 2022 and 2021, respectively. The note is secured by assets of the Pharmacy. The principal and interest is due on March 31, 2023, but the Hospital can call the note upon thirty days written notice.

Supplies

Supplies are stated at lower of cost (first-in, first-out) or net realizable value.

Investment and Interest Income

Investments in equity securities with readily determinable fair values and all investments in debt securities are measured at fair value in the balance sheets. Investment income or loss (including realized and unrealized gains and losses on investments, interest, and dividends) is included in the performance indicator unless the income or loss is restricted by donor or law.

Fair Value Measurements

The Hospital has determined the fair value of certain assets and liabilities in accordance with generally accepted accounting principles, which provides a framework for measuring fair value.

Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. Valuation techniques should maximize the use of observable inputs and minimize the use of unobservable inputs.

A fair value hierarchy has been established, which prioritizes the valuation inputs into three broad levels. Level 1 inputs consist of quoted prices in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date. Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the related asset or liability. Level 3 inputs are unobservable inputs related to the asset or liability.

Assets Limited as to Use

Assets limited as to use include a debt service reserve fund required under the loan agreement and funds held for the community of Burke for tornado relief assistance and consist of cash and cash equivalents.

Property and Equipment

Property and equipment acquisitions in excess of \$5,000 are capitalized and recorded at cost. Depreciation is provided over the estimated useful life of each depreciable asset and is computed on the straight-line method. The estimated useful lives of property and equipment are as follows:

Land improvements	8 - 15 years
Buildings and improvements	10 - 30 years
Equipment	3 - 25 years

Gifts of long-lived assets such as land, buildings, or equipment are reported as net assets without donor restrictions, and are excluded from the performance indicator, unless explicit donor stipulations specify how the donated assets must be used. Gifts of long-lived assets with explicit restrictions that specify how the assets are to be used and gifts of cash or other assets that must be used to acquire long-lived assets are reported as restricted support. Absent explicit donor stipulations about how long those long-lived assets must be maintained, expirations of donor restrictions are reported when donated or when acquired long-lived assets are placed in service.

The Hospital considers whether indicators of impairment are present and performs the necessary analysis to determine if the carrying values of assets are appropriate. No impairment was identified for the years ended December 31, 2022 and 2021.

Net Assets with Donor Restrictions

Net assets, revenues, gains, and losses are classified based on the existence or absence of donor-imposed restrictions. Some donor-imposed restrictions are temporary in nature, such as those that will be met by the passage of time or other events specified by the donor. Other donor-imposed restrictions are perpetual in nature, where the donor stipulates that resources be maintained in perpetuity. Donor-imposed restrictions are released when a restriction expires, that is, when the stipulated time has elapsed, when the stipulated purpose for which the resource was restricted has been fulfilled, or both.

Performance Indicator

Revenues in excess of expenses is the performance indicator and excludes transfers of assets to and from related parties for other than goods and services, and contributions of long-lived assets, including assets acquired using contributions which were restricted by donors.

Patient Service Revenue

Patient service revenue is reported at the amount that reflects the consideration to which the Hospital expects to be entitled in exchange for providing patient care. These amounts are due from patients, third-party payors (including health insurers and government programs), and others and includes variable consideration for retroactive revenue adjustments due to settlement of audits, reviews and investigations. Generally, the Hospital bills the patients and third-party payors several days after the services are performed and/or the patient is discharged from the facility. Revenue is recognized as performance obligations are satisfied.

Performance obligations are determined based on the nature of the services provided by the Hospital. Revenue for performance obligations satisfied over time is recognized based on actual charges incurred in relation to total expected (or actual) charges. The Hospital believes that this method provides a faithful depiction of the transfer of services over the term of the performance obligation based on the inputs needed to satisfy the obligation. Generally, performance obligations related to patient services are satisfied over time as the patients receive inpatient acute, outpatient or clinic services. The Hospital measures the performance obligation associated with inpatient acute services from admission into the hospital to the point when it is no longer required to provide services to that patient, which is generally at the time of discharge. The Hospital measures the performance obligations for outpatient and medical clinic services over the patient encounter, which is generally short in duration. Revenue for performance obligations satisfied at a point in time is recognized when goods or services are provided, and the Hospital does not believe it is required to provide additional goods or services to the patient.

The Hospital determines the transaction price based on standard charges for goods and services provided, reduced by contractual price concessions provided to third-party payors, discounts provided to uninsured patients in accordance with the Hospital's policy, and/or implicit price concessions provided to uninsured patients. The Hospital determines its estimates of contractual price concessions and discounts based on contractual agreements, its discount policies and historical experience applied to a portfolio of accounts. The Hospital determines its estimate of implicit price concessions based on its historical collection experience with the respective class of patients.

Settlements with third-party payors for retroactive adjustments due to audits, reviews or investigations are considered variable consideration and are included in the determination of the estimated transaction price for providing patient care. These settlements are estimated based on the terms of the payment agreement with the payor, correspondence from the payor and the Hospital's historical settlement activity, including an assessment to ensure that it is probable that a significant reversal in the amount of cumulative revenue recognized will not occur when the uncertainty associated with the retroactive adjustment is subsequently resolved. Estimated settlements are adjusted in future periods as adjustments become known (that is, new information becomes available), or as years are settled or are no longer subject to such audits, reviews and investigations.

Consistent with the Hospital's mission, care is provided to patients regardless of their ability to pay. Therefore, the Hospital has determined it has provided implicit price concessions to uninsured patients and patients with other uninsured balances (for example, copays and deductibles). The implicit price concessions included in estimating the transaction price represent the difference between amounts billed to patients and the amounts the Hospital expects to collect based on its collection history with those patients.

The Hospital provides health care services to patients who meet certain criteria under its charity care policy without charge or at amounts less than established rates. Since the Hospital does not pursue collection of these amounts, they are not reported as patient service revenue. The estimated cost of providing these services was \$47,000 and \$28,000 for the years ended December 31, 2022 and 2021, calculated by multiplying the ratio of cost to gross charges for the Hospital by the gross uncompensated charges associated with providing charity care to its patients.

Other revenue

Other revenue includes income from 340b contract pharmacy sales, rentals, dietary meal sales and other operating revenue. Revenue is recognized when obligations under the terms of the contracts are satisfied. Revenues from these services are measured at the amount of consideration the Hospital expects to receive for these services.

Donor-Restricted Gifts

The Hospital reports contributions restricted by donors as increases in net assets without restrictions if the restrictions expire (that is, when a stipulated time restriction ends or purpose restriction is accomplished) in the reporting period in which the revenue is recognized. All other donor-restricted contributions are reported as increases in net assets with donor restrictions. When a restriction expires, net assets with donor restrictions are reclassified to net assets without donor restrictions and reported in the statements of changes in net assets as net assets released from restrictions.

Contributions are recognized when cash, securities or other assets, an unconditional promise to give, or notification of a beneficial interest is received. Conditional promises to give are not recognized until the conditions on which they depend have been substantially met.

Advertising Costs

The Hospital expenses advertising costs as incurred.

Financial Instruments and Credit Risk

The Hospital maintains its cash in bank deposit accounts which exceed federally insured limits. Accounts are guaranteed by the Federal Deposit Insurance Corporation (FDIC) up to \$250,000 per depositor, per insured bank, for each account ownership category. December 31, 2022 and 2021, the Hospital had approximately \$8,237,086 and \$7,350,638, respectively, in excess of FDIC-insured limits. To date, the Hospital has not experienced losses in any of these accounts. Although the fair values of investments are subject to fluctuation on a year-to-year basis, management believes that the investment policies and guidelines are prudent for the long-term welfare of the Hospital.

Functional Allocation of Expenses

The costs of program and supporting services activities have been summarized on a functional basis in Note 13, which presents the natural classification detail of expenses by function. Accordingly, certain costs have been allocated among the programs and supporting services benefited.

The financial statements report certain categories of expenses that are attributed to more than one program or supporting function. Therefore, expenses require allocation on a reasonable basis that is consistently applied. Costs not directly attributable to a function, such as depreciation, interest and other occupancy costs, are allocated to a function based on a square-footage or units-of-service basis.

Adoption of Accounting Standards Codification Topic 842

Effective January 1, 2022, the Hospital adopted the new lease accounting guidance in Accounting Standards Update No. 2016-02, *Leases* (Topic 842). The Hospital elected to apply the guidance as of January 1, 2022, the beginning of the adoption period. The comparative financial information and disclosures presented are in accordance with the legacy standard, ASC 840. The standard requires the recognition of right-of-use assets and lease liabilities for lease contracts with terms greater than 12 months. Operating lease costs are recognized in the statement of operations as a single lease cost and finance lease costs are recognized in two components, interest expense and amortization expense. The Hospital has elected the package of practical expedients permitted in Topic 842. Accordingly, the Hospital accounted for its existing leases as either finance or operating lease under the new guidance, without reassessing (a) whether the contract contains a lease under Topic 842, (b) whether classification of the operating lease would be different in accordance with Topic 842, or (c) whether the unamortized initial direct costs before transition adjustments would have met the definition of initial direct costs in Topic 842 at lease commencement.

There was no significant impact to the January 1, 2022 balances in the accompanying financial statements as a result of the adoption of the new lease accounting guidance. See Note 10 for further disclosure of the Hospital's lease contract.

Subsequent Events

The Hospital has evaluated subsequent events through June 12, 2023, the date the financial statements were available to be issued.

Note 2 - Liquidity and Availability

Financial assets available for general expenditure, that is, without donor or other restrictions limiting their use, within one year of the balance sheet date, comprise the following:

	2022	2021
Cash and cash equivalents	\$ 7,787,462	\$ 7,131,008
Accounts receivable	1,059,379	965,509
Notes receivable	122,500	182,500
Investments	775,149	766,910
	\$ 9,744,490	\$ 9,045,927

As part of the Hospital's liquidity management plan, cash in excess of daily requirements are invested in short-term investments and money market funds. The Board could elect to designate a portion of operating surplus that may be drawn upon to meet unexpected liquidity needs. The Hospital's annuities can be withdrawn without penalty after June 18, 2021 and June 28, 2026.

Note 3 - Patient Service Revenue

The Hospital has agreements with third-party payers that provide for payments to the Hospital at amounts different from its established rates. A summary of the payment arrangements with major third-party payers follows:

Medicare: The Hospital is licensed as a Critical Access Hospital (CAH). The Hospital is reimbursed for most acute care services under a cost reimbursement methodology with final settlement determined after submission of annual cost reports by the Hospital and are subject to audits thereof by the Medicare Administrative Contractor (MAC). The Hospital's Medicare cost reports have been audited by the Medicare fiscal intermediary through the year ended December 31, 2020.

Medicare – Clinic: The Burke clinic is designated as a Certified Provider Based Rural Health Clinic by the Medicare program. As a result, clinical services rendered to Medicare program beneficiaries are reimbursed at cost based on a tentative rate with final settlement determined after submission of the Hospital's annual cost reports and audits thereof by the Medicare fiscal intermediary.

Medicaid: Inpatient acute care services rendered to Medicaid program beneficiaries are paid on a percentage of charges basis. Outpatient services rendered to Medicaid program beneficiaries are reimbursed under a percentage of charges or fee schedule methodology. Clinical services are paid on a fixed fee schedule for rural health clinic services.

Blue Cross: Services rendered to Blue Cross subscribers are reimbursed under a prospectively determined percentage of charges methodology.

The Hospital has also entered into payment agreements with certain commercial insurance carriers and other organizations. The basis for payment to the Hospital under these agreements includes prospectively determined rates per discharge, discounts from established charges, and prospectively determined daily rates.

Concentration of revenues by major payor accounted for the following amounts of the Hospital's patient service revenues for the years ended December 31, 2022 and 2021:

	<u>2022</u>	<u>2021</u>
Medicare	\$ 4,198,980	\$ 3,879,741
Medicaid	469,332	432,488
Blue Cross and other commercial payors	306,726	322,961
Other third-party payor and patients	<u>1,371,849</u>	<u>1,548,892</u>
	<u>\$ 6,346,887</u>	<u>\$ 6,184,082</u>

Laws and regulations governing the Medicare, Medicaid, and other programs are extremely complex and subject to interpretation. As a result, there is at least a reasonable possibility that recorded estimates will change by a material amount in the near term. The patient service revenue for the years ended December 31, 2022 and 2021 increased by approximately \$9,000 and \$14,000 due to removal of allowances previously estimated that are no longer necessary as a result of final settlements and years that are no longer likely subject to audits, reviews, and investigations and changes in estimated settlements.

Generally, patients who are covered by third-party payors are responsible for related deductibles and coinsurance, which vary in amount. The Hospital also provides services to uninsured patients, and offers those uninsured patients a discount, either by policy or law, from standard charges. The Hospital estimates the transaction price for patients with deductibles and coinsurance and from those who are uninsured based on historical experience and current market conditions. The initial estimate of the transaction price is determined by reducing the standard charge by any contractual adjustments, discounts and implicit price concessions based on historical collection experience. Subsequent changes to the estimate of the transaction price are generally recorded as adjustments to patient service revenue in the period of the change. The ability to estimate the collectability of uninsured and other self-pay patients is contingent on the patient's ability or willingness to pay for the services provided. Subsequent changes that are determined to be the result of an adverse change in the patient's ability to pay are recorded as bad debt expense. Bad debt expense for the years ended December 31, 2022 and 2021 was not significant.

The nature, amount, timing and uncertainty of revenue and cash flows are affected by several factors that the Hospital considers in its recognition of revenue. Following are some of the factors considered:

- Payors (for example, Medicare, Medicaid, managed care or other insurance, patient) have different reimbursement/payment methodologies
- Length of the patient's service/episode of care
- Geography of the service location
- Hospital's line of businesses that provided the service (for example, hospital, physician services, etc.)

Note 4 - Promises to Give

Promises to give are unconditional promises to give that the Hospital has received from corporations and individuals in the community. Certain promises are receivable over a period of time. The following is a summary of contributions receivable:

Under the terms of the promissory note agreement, the Hospital is required to maintain certain deposits. Such deposits are included with assets limited as to use in the financial statements. The loan agreement also places limits on the incurrence of additional borrowings.

Note 8 - Net Assets with Donor Restrictions

Net assets with donor restrictions are restricted for the following purposes or periods at December 31, 2022 and 2021:

	<u>2022</u>	<u>2021</u>
Grants for specific purposes, restricted by time	<u>\$ 30,000</u>	<u>\$ 40,000</u>

In 2022 and 2021, net assets were released from donor restrictions by incurring expenditures satisfying the restricted purposes in the amounts of \$10,000 and \$16,098. These amounts are included in net assets released from restrictions in the accompanying financial statements.

Note 9 - Pension Plan

The Hospital has a defined contribution pension plan under which employees become participants upon reaching age 21, completion of one year of service and work a minimum of 1,000 hours per year. Employer contributions of 3 percent for 2022 and 2021 of annual compensation were deposited with the plan trustee who invests the plan assets. Total pension expense for the years ended December 31, 2022 and 2021, was \$73,651 and \$56,832, respectively.

Note 10 - Leases

Operating Leases (Lessor)

During 2019, the Hospital remodeled part of the prior clinic building, Sweet Plaza, which is leased under long-term lease agreements and included in nonoperating income, along with various lease agreements with tenants within the Hospital included in operating income. Initial lease terms generally range from two to five years with fixed lease payments ranging from \$225 per month to \$2,000 per month.

Leased property subject to operating leases at December 31, 2022 and 2021, includes:

	<u>2022</u>
Buildings	\$ 221,499
Less accumulated depreciation	<u>(27,017)</u>
	<u>\$ 194,481</u>

Depreciation expense for leased property subject to operating leases is provided on the straight-line method over the estimated useful life of the property in amounts necessary to reduce the assets to their estimated residual values. Estimated and actual residual values are reviewed on a regular basis to determine that depreciation amounts are appropriate. Depreciation expense relating to leased property subject to operating leases was \$8,167 for the year ended December 31, 2022.

The Hospital received \$75,267 and \$93,800 in rental income under these arrangements for the years ended December 31, 2022 and 2021, respectively. Revenue from operating leases is included in other revenue on the statements of operations.

The following is a maturity analysis of the annual undiscounted cash flows of the operating lease payments to be received as of December 31, 2022:

<u>Years Ending December 31,</u>	
2023	\$ 77,124

2025	72,663
2026	69,221
2027	<u>67,861</u>
	<u>\$ 364,996</u>

Operating Leases (Lessee)

The Hospital leases a facility under a long-term, non-cancelable agreement. The lease expires in July 2027. The Hospital included in the determination of the right-of-use assets and lease liabilities any renewal options when the options are reasonably certain to be exercised.

The weighted-average discount rate is based on the discount rate implicit in the lease. The Hospital has elected the option to use the risk-free rate determined using a period comparable to the lease terms as the discount rate for leases where the implicit rate is not readily determinable. The Hospital has applied the risk-free rate option to the lease.

The Hospital has elected the short-term lease exemption for all leases with a term of 12 months or less for both existing and ongoing operating leases to not recognize the asset and liability for these leases. Lease payments for short-term leases are recognized on straight-line basis.

Total lease costs for the year ended December 31, 2022 were as follows:

	<u>2022</u>
Operating lease cost	\$ 2,700
Short-term lease cost	39,400

The following table summarizes the supplemental cash flow information for the year ended December 31, 2022:

Note 13 - Contingencies and Commitments

Management Agreements

The Hospital has a management agreement with Sanford Regional Health Network (Sanford) to manage the Hospital and provide certain management advisory services and information system services. The agreement shall continue through June 30, 2032; however, either party may cancel this agreement without cause by providing 180 days written notice. Under the terms of the management agreement, the Hospital is to reimburse Sanford for the salary and benefits of the Hospital's Chief Executive Officer, who is an employee of Sanford, plus an annual base amount which totaled \$33,000 and \$36,000 for the years ended December 31, 2022 and 2021, respectively, for management services provided. The information system fees incurred totaled \$139,711 and \$136,790 for the years ended December 31, 2022 and 2021, respectively.

Service Contracts

The Hospital has warranty service contracts to service specific medical equipment. The agreements expire on various dates through December 2029. Total expense under the contracts totaled \$48,000 for each of the years ended December 31, 2022 and 2021.

Future commitments are summarized as follows:

Years Ending December 31,		
2023	\$	18,667
2024		22,000
2025		88,126
2026		88,126
2027		81,459
Thereafter		132,252
	\$	430,630

Professional Liability

The Hospital has professional liability insurance coverage to provide protection for professional liability losses on a claims-made basis subject to a limit of \$1 million per claim and an annual aggregate limit of \$5 million. Should the claims-made policy not be renewed or replaced with equivalent insurance, claims based on occurrences during its term, but reported subsequently, would be uninsured.

Litigations, Claims, and Other Disputes

The Hospital is subject to the usual contingencies in the normal course of operations relating to the performance of its tasks under its various programs. In the opinion of management, the ultimate settlement of litigation, claims, and disputes in process will not be material to the financial position of the Hospital.

The health care industry is subject to numerous laws and regulations of federal, state, and local governments. Compliance with these laws and regulations, specifically those relating to the Medicare and Medicaid programs, can be subject to government review and interpretation, as well as regulatory actions unknown and unasserted at this time. Federal government activity has increased with respect to investigations and allegations concerning possible violations by health care providers of regulations, which could result in the imposition of significant fines and penalties, as well as significant repayments of previously billed and collected revenues from patient services.

Note 14 - COVID-19 Stimulus Programs

Provider Relief Funds

During the years ended December 31, 2022 and 2021, the Hospital received \$-0- and \$517,204, respectively, of Coronavirus Aid, Relief and Economic Security (CARES) Act Provider Relief Funds administered by the Department of Health and Human Services (HHS). The funds are subject to terms and conditions imposed by HHS. Among the terms and conditions is a provision that payments will only be used to prevent, prepare for, and respond to coronavirus and shall reimburse the recipient only for healthcare-related expenses or lost revenues that are attributable to coronavirus. Recipients may not use the payments to reimburse expenses or losses that have been reimbursed from other sources or that other sources are obligated to reimburse. HHS currently has deadlines to incur eligible expenses starting in June 30, 2021 through December 31, 2022. Unspent funds will be expected to be repaid.

These funds are recorded as a refundable advance when received and are recognized as revenues in the accompanying statements of operations as all terms and conditions are considered met. The terms and conditions are subject to interpretation changes, and future clarification, the most recent of which have been considered through the date the financial statements were available to be issued. In addition, this program may be subject to oversight, monitoring and audit. Failure by a provider that received a payment from the Provider Relief Fund to comply with any term or condition can subject the provider to recoupment of some or all of the payment. As a result, there is at least a reasonable possibility that recorded estimates will change by a material amount in the near term.

As of December 31, 2022 and 2021, the Hospital had a total refundable advance balances of \$200,000 and \$148,977, respectively, which was included in current liabilities on the accompanying balance sheets. During the years ended December 31, 2022 and 2021, the Hospital recognized \$-0- and \$2,624,113, respectively, from the Provider Relief Funds in the accompanying statements of operations.

Other Stimulus Grants

During the years ended December 31, 2022 and 2021, the Hospital also received \$207,353 and \$84,317 from the State of South Dakota and other federal sources. The Hospital recognized revenue related to these stimulus grants of \$207,353 and \$84,317, respectively, for the years ending December 31, 2022 and 2021 and there were no refundable advances reported as of December 31, 2022 and 2021.
